The Journal of "Food Biotechnology Research" is an international, peer-reviewed open access journal dedicated to discuss the current developments and applications of modern genetics, enzymatic, metabolic and systems-based biochemical processes in food and food-related biological systems.

### **Journal of Food Biotechnology Research - iMedPub**

Heavy metal pollution has become one of the most serious environmental problems today. Biosorption, using biomaterials such as bacteria, fungi, yeast and algae, is regarded as a cost-effective biotechnology for the treatment of high volume and low concentration complex wastewaters containing heavy metal(s) in the order of 1 to 100 mg/L.

Drug design, often referred to as rational drug design or simply rational design, is the inventive process of finding new medications based on the knowledge of a biological target. The drug is most commonly an organic small molecule that activates or inhibits the function of a biomolecule such as a protein, which in turn results in a ...
