Evolution is the process of change in all forms of life over generations, and evolutionary biology is the study of how evolution occurs. Biological populations evolve through genetic changes that correspond to changes in the organisms' observable traits.

Introduction to evolution - Wikipedia

Charles Robert Darwin (February 12, 1809 – April 19, 1882) was a British naturalist who achieved fame as originator of the theory of evolution through natural selection. Considered the "father of evolutionary theory," Darwin made two contributions of enormous impact to the idea of evolution. First
