AIR CONDITIONING AND COMFORT COOLING The design, engineering installation and support of complete air and environmental systems for Manufacturing, logistics

### **AND COMFORT COOLING - environmental climate systems**

energy savings at home. Improving your home's energy efficiency with ENERGY STAR can help to lower high energy bills, improve comfort and reduce greenhouse gas emissions.

### **HVAC: Energy Efficient Heating, Ventilating & Air**

Heating, ventilation and air conditioning (HVAC) systems supply fresh air and condition the indoor air temperature and humidity of a building.

### **Highly efficient heating, ventilation and air conditioning**

Never use mechanical heating and cooling as a substitute for good design. However, for existing homes, installation of high efficiency heating and cooling technologies, with modest building improvements and behaviour change, may be cheaper options to reduce energy bills and greenhouse gas emissions than major home renovations.
