Financial Modeling and Valuation: A Practical Guide - PDF Book

This practical spreadsheet modelling exercise has been constructed by BPM Financial Modelling in order to provide a guide to understanding the development of dynamic, linked three-way financial statements i.e. Income Statement, Balance Sheet and Cash Flow

Practical Financial Modelling provides a great coverage of topics for a book on process modelling. It successfully guides the reader in an innovative practical approach through model use, validation and sensitive analysis. This is a very valuable material to any practitioner, student, or researcher in the modelling process framework."

a computer for the majority of the course on practical financial modelling topics. It is expected that participants will have had prior exposure to spreadsheets, and already be able to work with essential formulae like SUM and IF. An understanding of the difference between absolute and relative addressing (e.g. between =B\$2 and =B2) will also be helpful. Familiarity with basic accounting ...
