

quaternionic analysis and elliptic pdf

A unit quaternion is a quaternion of norm one. Dividing a non-zero quaternion q by its norm produces a unit quaternion Uq called the versor of q : $= \hat{q} - \hat{q}$. Every quaternion has a polar decomposition $= \hat{q} - \hat{q} - \hat{q} \dots$. Using conjugation and the norm makes it possible to define the reciprocal of a non-zero quaternion.
